Video production professional with nearly 10 years of experience creating digital, broadcast, and social media content. Skilled in video production, post-production, project coordination, live broadcast operations, and audience-focused storytelling.

PROFESSIONAL EXPERIENCE

Video Editor / Production Coordinator

Level1Techs — Richmond, KY | June 2021–Present

- Edit and produce long-form informational and entertainment content for an audience of 525,000+ subscribers across YouTube and social platforms.
- Manage portions of the production pipeline, including scheduling, shoot coordination, footage organization, and delivery deadlines.
- Collaborate directly with on-screen talent and leadership to develop engaging, audience-focused video content.
- Create motion graphics, visual assets, and digital enhancements to improve viewer retention and presentation quality.
- Support marketing initiatives through branded media production and cross-platform content adaptation.
- Serve as videographer and part-time project manager for special productions and collaborative media projects.

Video Production Assistant

Eastern Kentucky University — Richmond, KY | Oct 2016–June 2021

- Assisted in planning and producing promotional media for television broadcasts, university websites, and social media campaigns.
- Coordinated post-production workflows including editing, asset management, and digital archiving.
- Supported multi-department media initiatives under tight production deadlines.
- Contributed to creative development and execution of branded university content.

Marketing Manager

Richmond Car and Truck Center — Richmond, KY | Feb 2020–May 2020

- Led photo and video production for dealership marketing campaigns and online inventory presentation.
- Produced multimedia advertising content for social media and digital platforms.
- Improved vehicle presentation quality through professional automotive photography and videography.

Broadcast Technician Assistant

EKU Athletics — Richmond, KY | Oct 2016–Nov 2019

- Supported live broadcasts for ESPN+ and OVC Network coverage across football, basketball, baseball, softball, soccer, and volleyball.
- Operated cameras, audio systems, replay systems, and Tricaster live-switching equipment during live productions.
- Worked in fast-paced live broadcast environments requiring technical precision and team coordination.

EDUCATION

Eastern Kentucky University

Bachelor of Arts — Broadcasting & Electronic Media
